

Environmental Policy Statement

Record UK Ltd is committed to protecting the environment on sites, at customers premises and in the communities where we operate.

We recognize that by integrating good environmental Management practices into all aspects of our business, we can offer market leading products and services while conserving and enhancing resources for future generations.

Record UK Ltd strives for continuous improvement in our environmental Management systems and in the environmental quality of our products, processes, and services. Our management systems are accredited to ISO 14001:2015.

Key Objectives:

- Developing and maintaining an Environmental Management System (EMS) that meets the requirements of BS EN ISO 14001
- Ensuring continual improvement in environmental performance through the setting, implementation and regular review of objectives, targets and performance indicators.
- Understanding and ensuring compliance with the requirements imposed through environmental legislation and best practice industry standards.
- Training of our staff to ensure competence, continual professional development and the embracing of new technologies and expertise.
- Preventing pollution through the identification and control of significant environmental risks, by adoption of good environmental practices.

Where practical, we will seek to reduce our impact on the environment through:

- Minimising our use of resources
- Reducing our energy consumption
- Implementing recycling and minimal waste practices

All our staff have a responsibility in assisting the company to minimize the impact of our activities on the environment and, where possible, identifying improvements in our operational practices.

Mark Ayton

Managing Director
